P.E.S College of Engineering

PES College of Engineering is one of the premier engineering colleges in India. Established in the year 1962 by Late Sri K V Shankaregowda, the college has made great strides in the field of engineering education. The college was recently secured the 30th position in the "Outlook" Magazine's survey of the engineering colleges in the country.

Department of Mechanical Engineering

The Department of Mechanical Engineering has carved a niche for itself by offering the most competent instructional program to undergraduate and

graduate students.

The Department was one of the first to start functioning in 1962.

The faculty consists of well qualified and experienced individuals who are experts in their areas of study.

MECHOLITES

Mecholites is a prestigious technical fest conducted by the Mechanical department of the PES College of Engineering Mandya. The annual event boasts of high quality of technical events and competitions and impeccable planning. The fest has been conducted successfully at the state level for 5 years. Mecholites 2011 will be a gala 3 day national event. The fest will be characterised by loads of exciting new events & mind blowing prizes and many more events which will sent an example which others can follow and makes for an unforgettable experience.

Mecholites 2011

This year's tech fest is annual State Level Tech festival "**MECHOLITES - 2011**" for Engineering undergraduate, diploma and post graduate students on **7th, 8th and 9th of April 2011**. This year's festival boasts a variety of events both technical and cultural. The tech fest will be in tandem with the fun and frolic of the annual college fest JNANA CAUVERY-2011 (PESCO).

The technical events of Mecholites will be on morning session of day followed by cultural events on the evening session

TECHNICAL EXHIBITION

The Technical Exhibition is an avenue for budding technical geniuses to flaunt their flair. 200 students from all over the state will compete in this grand display of the Technical excellence.

ROBOWARS

Consisting of three levels the ROBOWARS will be the battleground for determining best automaton. Only the expertise in both design and circuitry would ensure the bots' survival.

MARATHON

The tiger- Our national animal-has been reduced to a mere 1411 in number due to our apathy. Join us in raising awareness to save the pride of our great nation.

FOUNDRY, FORGING & MACHINESHOP

These contests demand the combination of both brawn and brain to create the most exquisite pieces of art.

CADathon

The CADathon is the ultimate test of a student's visualization skills and the comprehension of the nuances of engineering drawing. The contest is of 2 stages- one of the 2D and 3D assembly.

FIX It

The puzzle solvers nemesis Fixit is an assembly design contest. Participants are required to assemble a machine part using the given set of parts, a final assembled view of the part.
