

Technical talk on planning tools

The technical talk was delivered by Mr. Mohan Ramanujan, who delivered special technical talk on the planning tools that are widely used in contemporary business it was conducted on 26/4/2019, in our department.

He described about the seven planning tools, that are Force field analysis, Affinity diagram, Interrelationship diagram, Tree Diagram, Matrix Diagram, Prioritization Matrix and decision program charts. Firstly he describe all the aspects, then the students were given with the different question to solve by applying the planning tools which he describes,

All students were given a white flip sheet to write their solutions and present thier solutions to the audience. And we all enjoyed the session by brainstorming the ideas about the given questions and learnt the practical application of planning tools.
